SafetyNet Plans

An easily developed, workable Business Continuity plan that is easy to maintain, secure and always available, anywhere.

- Developed in accordance with BS25999
- Hosted, Internet based Business Continuity Planning Tool specifically designed for businesses in the Small and Medium sector.
- Low cost monthly subscription.
- Pre-loaded Templates for faster results.
- Includes an inbuilt Business Impact Analysis tool.
- Structured format and intuitive interface designed for managers for whom Business Continuity is only a subset of their role.
- Automated reminders to review and update plans.
- Minimal training or familiarity with Business Continuity principles is required in order to create workable plans. A solution for Smaller Businesses developed by the most experienced Disaster Recovery and Business Continuity Consultants in the World.
- Plans are up to date, secure and always available, anywhere
- Cost effective flexible solution

30 years experience in Business Continuity concentrated into a simple package and developed by award winning consultants.
