## SafetyNet Training 1 - Creating a Business Continuity Plan

The first step to business continuity from the company that pioneered the concept.

- A one day course in Business Continuity at a SunGard recovery centre and including:
  - An overview of BS25999
  - How to understand your organisation
  - Understanding risk
  - Developing Strategies
  - Creating the Business Continuity Plan
- Provides an introduction to the SafetyNet planning tool.
- Training from the experts who helped write BS25999 (the new standard for Business Continuity Management).
- Low cost, high value.
- Training is run regularly around the country in order to be convenient to you.
- Training sessions condensed and tailored to the needs of busy managers in Small / Medium enterprises.
- Includes lunch and refreshments.

**30 years experience in business continuity in one simple package.**  
Training developed by award-winning consultants.

**To book your place on the next training day in your area call 0800 35 85 15 0**
