SafetyNet Training 2 - Business Continuity exercises and plan maintenance

Continuation training for managers who already have a plan, from the company who pioneered Disaster Recovery and Business Continuity.

- A one day course designed to follow on from Business Continuity Training 1, once you have finished your plan.
- Training at a SunGard recovery centre includes:
 - Review, audit and maintaining your plan.
 - Testing the plan.
 - How to run Incident Management exercises.
- Training from the experts who helped write BS25999 (the new standard for Business Continuity Management).
- Low cost, high value.
- Training is run regularly around the country in order to be convenient to you.
- Training sessions condensed and tailored to the needs of busy managers in Small / Medium enterprises.
- Includes lunch and refreshments.

30 years experience in business continuity in one simple package.
Training developed by award-winning consultants.

To book your place on the next training day in your area call 0800 35 85 15 0
